

# The WoodMaster Advantage

## Proven performance, reliability and savings

WoodMaster's exclusive design incorporates key features that maximize Btu delivered. This gives you more usable heat while minimizing cutting and filling time—all with consistently comfortable heating.

**A** **Fan-induced draft** allows faster water temperature recovery

**B** **Smart heat baffle** reduces exhaust escaping out fuel door and minimizes heat loss through chimney, plus reduces stack temperatures up to 53 percent in the closed position

**C** **Exterior light** for better visibility at night

**D** **Thick R38 fiberglass insulation** provides non-flammable, secure water jacket wrap. Insulated shell keeps heat in and maintains cool-to-the-touch exterior

**E** **Free-standing design** eliminates need for a concrete slab and allows year-round installation

**F** **Large front door(s)** for easier loading and cleaning, plus door(s) stay cool to the touch

Large rear door provides easy access for plumbing, multiple hookups and maintenance

**G** **Ash auger** (optional) eliminates shoveling ash and hot coals from the furnace, plus optimizes performance with an air scoop built into the grate that diverts air under the fire
